

## Alejandro Iván Villegas Partida

CDMX, Iztapalapa • alejandrovillegas.hu@gmail.com • [linkedin.com/in/alejandro-ivan](https://www.linkedin.com/in/alejandro-ivan) • [github.com/ivanhue](https://github.com/ivanhue)

### About me

Software Developer with over 2 years of experience. I have worked with different technologies and have shown strong ability to adapt to new environments. I am good at solving problems, organizing tasks, and helping to maintain a positive and collaborative work atmosphere.

### Experience

#### Media Aérea

##### Full Stack

Remote

Nov 2023 – Currently

- Developed web applications using Django (MVT architecture), leveraging JavaScript and Python to enhance functionality and performance.
- Designed and implemented RESTful APIs, created endpoints, and documented processes with Swagger, ensuring adherence to best practices.
- Optimized database queries through Django's ORM, improving data retrieval and application efficiency.
- Utilized Docker to streamline development environments and ensure consistent deployment across systems.
- Managed version control and collaboration using Git, facilitating efficient team workflows and code management.
- Utilized CMMI framework for iterative development, progress presentations, and continuous feedback to enhance project quality and alignment.

#### Universidad Autónoma Metropolitana

##### System Support Specialist

CDMX, Iztapalapa

Feb - 2023

- Provided technical support to students and faculty, troubleshooting and resolving issues to ensure seamless operation.
- Automated processes, reducing manual workload and saving significant hours of work.
- Organized and managed databases, ensuring data integrity and efficient access.
- Deployed web applications, ensuring smooth and efficient rollout for end-users.
- Managed direct client interactions, handled ambiguity, and ensured requirement fulfillment through effective communication and problem-solving.

#### RedPoint

##### Artificial Intelligence Developer

Remote

Nov 2022 – Feb 2023

- Object detection and classification (Computer vision).
- Utilization of Raspberry Pi for machine learning projects.
- Project documentation.
- Database management.

### Education

#### Universidad Autónoma Metropolitana

##### Bachelor of Computer Science

CDMX, Iztapalapa

Feb - 2023

- GPA: 3.5/4.0
- Thesis: Human Posture Detection using AI tools
- Relevant Coursework: Chatbot Development

## Leadership, Activities & Certifications

**Neuroscience researcher CINVESTAV  
Research Assistant**

**Apr 2023 – May 2023**

- Analysis of data produced by experiments in the rat hippocampus.
- Optimization of laboratory workflow using new technologies.

**Supervised Machine Learning: Regression and Classification  
Certification**

**Jul - 2022**

- Build machine learning models in Python using popular machine learning libraries NumPy & scikit-learn

**IEEE Computer Society  
President**

**Feb 2022 – Feb 2023**

- Collaborated with cross-functional teams on social impact projects, contributing to successful outcomes.
- Planned and delivered workshops, courses, and talks to provide support and guidance to students.

**Microsoft Azure AZ900 Certification (Cloud Computing)  
Certification**

**Jan - 2022**

- Foundational knowledge of cloud concepts and Microsoft Azure

## Skills & Interests

**Technical:** Python, Javascript, SQL, Docker, Git, Linux commands.

**Language:** English B1/B2

**Soft skills:** Teamwork, adaptability, conflict resolution, time management.

**Interests:** Cloud, backend, devops, good practices, linux.
